

# GRADE 11 SUMMER INTERVENTION – 2020

*Getting ready for Matric 2021*

**Proud Content Provider to the Woza Matrics Program on SABC3,  
e-TV and DSTV**

---

Monyetla Bursary Project is a Public Benefit Organisation (PBO) with the mission to support South African learners. During 2020, Monyetla Project became widely known for providing **free video lessons** on [www.monyetlaproject.co.za](http://www.monyetlaproject.co.za). The lessons were recorded by subject specialists in 12 learning areas. Matrics across South Africa expressed appreciation for this provision.

This website has become very popular. Currently, there are 72 000 viewers. The quality of tuition is excellent. We are proud to be one of only 5 content providers for lessons shown on SABC 3, e-TV and DSTV. This is part of the *Woza Matrics* program.

This year, grade 11 learners had very little contact time with teachers. Educators are concerned about the fact that learners have not been exposed to sufficient content knowledge in comparison to the past. Due to the impact of the Covid-19 pandemic, many learners experience anxiety and are unsure about their readiness for matric. Educators are also under pressure. The tight work schedule in matric does not allow much time to catch up with grade 11 content.

We are happy to announce that a **GRADE 11 Summer Intervention Program** will be presented on [www.monyetlaproject.co.za](http://www.monyetlaproject.co.za) from **15 December 2020 to 20 January 2021**.

The whole Grade 11 Support Program on [www.monyetlaproject.co.za](http://www.monyetlaproject.co.za) is presented without cost. Learners view video lessons **for free** when they get an MTN sim card. If they access the video lessons and learner material from a service provider other than MTN, it is also free of charge. The only expense to the candidate will be internet cost. Past question papers and answers in ALL matric subjects can be downloaded from this website.

Top teachers will focus on topics that are most crucial to a proper foundation for Grade 12 in each of 12 subjects.

## **The format of the Summer Camp is as follows:**

Learners view a 45 minute **video lesson** on a specific topic. 

**Notes** are provided for learners to study. 

The next day an **assessment** activity is loaded. 

**Marking Guidelines** are provided to monitor learners' progress. 

Learners may follow the schedule provided to get into a routine of learning. Alternatively, they can plan their own schedule according to their personal circumstances. Learners may watch videos again if certain points are not well understood. **Please see the schedule attached for an outline on which subjects and content will be covered during the December holidays.**

With this we wish you all of the best for Matric – 2021. A good matric opens many doors. We trust you will use this opportunity to achieve the marks you deserve.
